Washington, D.C. 20590

Pipeline and
Hazardous
Materials Safety
Administration

JUN 27 2005

DOT-E 11432
(NINTH REVISION)

EXPIRATION DATE: May 31, 2007

(FOR RENEWAL, SEE 49 CFR § 107.109)

1. GRANTEE: Baker Atlas
Houston, Texas

(See Appendix A to this document for a list of additional grantees)

2. PURPOSE AND LIMITATION:

a. This exemption authorizes the transportation in commerce of certain Division 1.4 igniters mix-packed with certain Division 1.4 detonators. These materials would then be shipped on the same motor vehicle, cargo vessel or cargo aircraft with Class 1 jet perforating guns, detonating cords, commercial shaped charges or power device cartridges, subject to the packaging and safety measures prescribed herein. This exemption provides no relief from any Hazardous Materials Regulation (HMR) other than as specifically stated herein.

b. The safety analyses performed in development of this exemption only considered the hazards and risks associated with transportation in commerce.

3. REGULATORY SYSTEM AFFECTED: 49 CFR Parts 106, 107 and 171-180.
4. REGULATIONS FROM WHICH EXEMPTED: 49 CFR § 172.301(a), in that the marking of the proper shipping name and identification number on the outer packagings is not required; § 173.61(c), insofar as UN0255, UN0267, UN0455 and UN0456 detonators being packed together with other Class 1

JUN 27 2005

explosives; §§ 175.3 and 176.3, 173.61(c) and 177.835(g)(3) insofar as no detonator may be transported on the same motor vehicle with any Division 1.1, 1.2, 1.3 or Division 1.4 detonating cord materials unless it is packed and loaded in accordance with a method approved by the Department of Transportation; and this exemption specifically constitutes that approval except as specified herein.

5. BASIS: This exemption is based on the application of Baker Atlas dated May 3, 2005, submitted in accordance with § 107.109.

6. HAZARDOUS MATERIALS (49 CFR § 172.101):

Hazardous Materials Description			
Proper Shipping Name	Hazard Class/ Division	Identification Number	Packing Group
Detonators, electric, for blasting	1.4B	UN0255	II
Detonators, electric, for blasting	1.4S	UN0456	II
Detonators, non-electric, for blasting	1.4B	UN0267	II
Detonators, non-electric, for blasting	1.4S	UN0455	II
Igniters	1.4G	UN0325	II
Igniters	1.4S	UN0454	II

7. SAFETY CONTROL MEASURES:

a. PACKAGING - The following packing methods are authorized:

(1) **Packing Method A**

(i) INNER PACKAGINGS - Each detonator must be completely enclosed by a heavy wall fiberboard tube having a length of 15 cm (5-7/8") and a wall thickness not less than 0.75 cm (0.3"). Non-electric detonators must be centered in the tubes with tissue paper and closed with tape. Each igniter must be enclosed in a plastic receptacle or paper bag. Igniters and detonators may not be packaged in the same inner packaging together.

JUN 27 2005

(ii) OUTER PACKAGINGS - The detonators and igniters must be placed in a heavy wall steel magazine box constructed from at least 12 gauge low-carbon steel lined with 0.6 cm (1/4 inch) thick foam rubber or wood on all interior surfaces. Not more than 24 detonators or igniters or combination of both are authorized to be transported in the steel magazine box at one time. The magazine box must have at least two means of preventing the lid from opening in the event of accidental initiation of one or more of the devices.

(2) **Packing Method B**

(i) INNER PACKAGINGS: As prescribed by the Competent Authority Approval for the appropriate article to the original manufacturer/shipper, but not containing more than 50 igniters or 50 detonators each. Detonators and igniters must not be packaged together in the same inner packaging.

(ii) OUTER PACKAGINGS: An IME 22 container or compartment is used as the outer packaging. This IME 22 container or compartment must not contain more than 1000 igniters or detonators or any combination thereof.

8. SPECIAL PROVISIONS:

a. A current copy of this exemption must be maintained at each facility where the package is offered or reoffered for transportation.

b. MARKING -

(i) Each inner packaging must be clearly marked with the appropriate UN Number, proper shipping name, division number and compatibility letter of the devices contained therein.

(ii) The steel magazine box or IME 22 container or compartment used to transport detonators and igniters must be marked in letters at least 12 mm. high (0.47 inch) as follows:

DANGER--DETONATORS AND IGNITERS
DOT-E 11432

JUN 27 2005

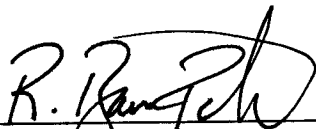

- c. Detonators may not have a net explosive weight (excluding initiation and delay elements) greater than 1 gram.
9. MODES OF TRANSPORTATION AUTHORIZED: Motor vehicle, cargo vessel and cargo aircraft only (for shipment by aircraft, see paragraph 10(c)).
10. MODAL REQUIREMENTS:
- a. A current copy of this exemption must be carried aboard each cargo vessel or motor vehicle used to transport packages covered by this exemption. The shipper must furnish a current copy of this exemption to the air carrier before or at the time the shipment is tendered.
- b. Transportation by cargo vessel is strictly limited to private off-shore supply vessels engaged in oil well operations.
- c. Transportation by cargo aircraft, including helicopters, is strictly limited to private carriers engaged in oil well operations.
11. COMPLIANCE: Failure by a person to comply with any of the following may result in suspension or revocation of this exemption and penalties prescribed by the Federal hazardous materials transportation laws, 49 U.S.C. 5101 et seq:
- o All terms and conditions prescribed in this exemption and the Hazardous Materials Regulations, 49 CFR Parts 171-180.
 - o Persons operating under the terms of this exemption must comply with the security plan requirement in Subpart I of Part 172 of the HMR, when applicable.
 - o Registration required by § 107.601 et seq., when applicable.

Each "Hazmat employee" as defined in § 171.8, who performs a function subject to this exemption must receive training on the requirements and conditions of this exemption in addition to the training required by § 172.700 through § 172.704.

No person may use or apply this exemption, including display of its number, when the exemption has expired or is otherwise no longer in effect unless a regulation has been amended making the exemption no longer necessary.

12. REPORTING REQUIREMENTS: Shipments or operations conducted under this exemption are subject to the Hazardous Materials Incident Reporting requirements specified in 49 CFR §§ 171.15 - Immediate notice of certain hazardous materials incidents, and 171.16 - Detailed hazardous materials incident reports. In addition, the grantee(s) of this exemption must notify the Associate Administrator for Hazardous Materials Safety -- OHMEA, in writing, of any incident involving a package, shipment or operation conducted under terms of this exemption.

Issued in Washington, D.C.:

fe Robert A. McGuire
Associate Administrator for
Hazardous Materials Safety
